INTERSPILL 2022 CONFERENCE & EXHIBITION – RAI AMSTERDAM

21-22 March 2022, the MOIG Director participated to INTERSPILL 2022, the European Oil Spill Conference and Exhibition which took place at the RAI Centre, in Amsterdam-Netherlands.

The event gathered International associations and organizations, manufacturers, responders, services companies, experts and consultants working on oil spill prevention, preparedness and response from all over world to meet and share knowledge.

The conference featured oral communications, poster presentations, science workshops and courses. The main conference programme was organized around sessions on a diverse set of topics including trends in propulsion, incident management, contingency planning & preparedness, surveillance modeling & visualization, shipping risks, incident management (experiences and the pandemic), offshore surface response, subsea response, inland response, shoreline response, wildlife, emerging technology, dispersant, issue of plastic pollution, claims for environmental damage and post spill studies, sensitive tropical environments and atmospheric pollution from chemical slicks.

During the conference, a meeting was performed with ATRAC representatives in which was discussed the technical and logistical arrangements of the regional workshop on Enhancing Oil Spill Preparedness and Response in the Adriatic and the Mediterranean Regions that will be held from 25 to 27 October 2022, in Opatija-Croatia

The event was also a good opportunity to meet the attending members, technical partners and response companies such as: CEDRE, DESMI, VIKOMA, LAMOR, OSRL, REMPEC, MEKE MARINE, NEW NAVAL, IEMS and ELEGY.

We were very delighted with the outcome of these meetings, members and technical partners expressed their full support to the regional workshop to be held in Opatija-Croatia and MOIG future activities.

UPDATE OF MOIG BROCHURE

28 June 2022, MOIG produced its brochure version 2022, aimed at providing general information and an overview on its background. The new version contains six (06) pages including information related to Framework, Guiding Principles, Mission and Vision, Membership, Members and Technical Partners, benefits, contacts and Useful Links.

The updates have been made on the front page, membership and members sections.

REGIONAL WORKSHOP ON ENHANCING OIL SPILL PREPAREDNESS AND RESPONSE IN THE ADRIATIC AND MEDITERRANEAN REGIONS

30 June 2022, the Mediterranean Oil Industry Group (MOIG), the Adriatic Training and Research Centre for Accidental Marine Pollution Preparedness and Response (ATRAC) and JANAF are very pleased to announce that the Regional Workshop on Enhancing Oil Spill Preparedness and Response in the Adriatic and Mediterranean Regions; will be held from 25 to 27 October 2022; at the Ambassador Hotel in Opatija-Croatia.

The main objectives of this workshop will be to reinforce and develop Sub-Regional contingency plans, to stay abreast of the newest technologies, to benefit from responders & manufacturers technical expertise as well as to share information on lessons learned and best practices of the previous exercises.

This event will host representatives from Governments, Oil and Gas Industry, Responders, Manufacturers, National and International Organizations, Academics, experts, consultants and HSSE Engineers and will be a good opportunity to exchange ideas, to improve knowledge and skills on oil spill preparedness and response as well as to network and develop new contacts.

The first two days event will hear papers delivered by speakers along the following topics: T1 - Contingency planning & Regulatory and legal requirements, T2 - Regional initiatives and activities in the Adriatic and Mediterranean regions, T3 - Oil spill modeling and training, T4 - Spill preparedness capability and response management, T5 - Oil spill response services and new technologies, T6 - National and regional emergency response Exercises. The workshop working language will be English.

The last day event will be dedicated to a visit to JANAF terminal located on the Island of Krk and will be a good opportunity for attendees to see a demo of oil spill response equipment at the terminal; with an overview of the air dam (boom) which is unique on the global level. The workshop agenda will be provided in due time.

In order to enable MOIG, ATRAC and JANAF to have all logistic arrangements made on time, it would be appreciated; if you could click the following link to download the [Registration Form](#); complete and return it by Mails at: houcine.mejri@moig.org.tn and info@atrac.hr at your earliest convenience; preferably before 23 September 2022.

We would like to bring members and technical partners attention that the sanitary pass COVID-19 is compulsory for any participant who wishes to attend the workshop. Whilst looking forward to meeting you in this workshop, please do not hesitate to contact for any further information. We rely on your active participation to make this event a memorable success.
